

Leica Rugby 810, 820 & 840

The toughest construction lasers on site

SITE PROOF
by Leica Geosystems

Leica Rugby

The toughest construction lasers on site

Leica Rugby construction lasers are more than just a product, they are an intelligent, versatile, clever solution that significantly enhance your application performance. The Rugby lasers are an integrated part of the Leica Geosystems intelligent **CON**struction portfolio, providing a comprehensive solution for our customers.

... laser plane in real-time avoiding costly mistakes

Unique power concept

Unbeatable versatility – power and charge anywhere, anytime!

- Intelligent and rugged Li-Ion battery concept
- Interchangeable battery packs throughout the new Leica Rugby family (Alkaline and Li-Ion)
- Run and charge anywhere – in the car, from a 12v battery / generator or out in the sun with the solar panel

reddot design award
winner 2013

no cost period of

Intelligent, versatile, clever – it's more than just a laser!

Intelligent laser systems combined with unique accessories provide unbeatable application performance.

- The Rugby 820 and Rugby 840 are designed for use as horizontal or multipurpose lasers for forms, flat work and many more applications.
- Increase the functionality of these Rugby lasers with the use of the RC 800 remote which turns them into semi-automatic, grade lasers for slope applications.

Leica Rugby

Fit, fast, tough – select the best player for your site

Leica Rugby lasers are the toughest rotating lasers in construction. Level, align and square much quicker than ever before, eliminating costly errors and downtime.

Leica Rugby 820

Tough as concrete – unbeatable with slopes

- Carry out concrete forming, pad placement and framework levelling; setting foundations and footings has never been more efficient
- Automatic slope matching in single or dual-axis with the Leica Rod Eye 180 RF receiver by using the Smart Targeting and Smart Lock functionality
- Semi-automatic, dial-in grade using the RC 800 remote control

Complete application with Leica Rod Eye 180 RF receiver and remote controls

Dial in semi-automatic grade for slopes

- Enhance the performance of the Rugby 800 and Rugby 840 with digital grade capabilities using the RC 800 remote control
- Dial-in grade in single or dual axis, easy and fast at the touch of a button
- The unique Smart Slope function continuously monitors time and temperature changes to ensure accurate performance over the course of the day

Leica Rugby

The right team for every application on site

- 1 Land levelling**
Full system for agricultural land levelling operating dozers with the best results.

- 2 Dial-in grade**
Dial-in, semi-automatic grade using the RC 800 remote control

- 3 Slopes for ramps and driveways**
Automatically tie-in slopes in single and dual axis using Smart Targeting.

- 4 Vertical alignment of formwork**
Automatically align parallel to the reference with Smart Targeting and check plumb of formwork.

- 5 Set-out walls**
Automatically align two points with Smart Targeting and mark position of wall/formwork.

- 6 Concrete pouring**
Check height of concrete and use digital readout for clear indication of offset.

- 7 Batter board**
Align batter board markings and set-out building axis.

- 10 Level decks and slabs**
Level decks and slabs easily and efficiently. Digital readout provides clear indication of offset.

- 8 Formwork levelling**
Transfer reference height and level formwork.

- 9 Facade alignment**
Align fixings for facade over the entire plane.

Leica Rugby Accessories

The Leica Rod Eye family of receivers and accessories offers solutions for any general construction and interior application. They are engineered to the highest standard and work seamlessly with the Leica Rugby laser portfolio.

Leica Rugby receiver with Smart Targeting. The receiver is equipped with a laser beam that can be easily detected over the entire distance.

Plug and play – perfect application set-up with clever accessories

A220 Batter Board clamp and adapter: provides a simple, string free set-up on batter boards. When not in use, the 90° receiver adapter attaches to the main clamp for easy storage.

A240 Manual Slope adapter: up to 90° slope possibility in one axis using the Leica Rugby in manual mode.

A280 Facade adapter: enables an easy and practical set-up for all facade installations. The kit consists of two adapter brackets and a batter board clamp with the 90° receiver adapter.

Technical Specifications

Technical data	Rugby 810	Rugby 820	Rugby 840
----------------	-----------	-----------	-----------

Weight (kg)	2.5	2.5	2.5
Batteries (alkaline/li-ion)	60 hours / 50 hours @ 20 °C	60 hours / 50 hours @ 20 °C	60 hours / 50 hours @ 20 °C
Operating temperature (°C)	-10 to 40	-10 to 40	-10 to 40

PROTECT by Leica Geosystems

We always protect your success!

In addition to comprehensive technical knowledge, thinking holistically about the needs and requirements of our customers has the highest priority at Leica Geosystems. Close cooperation with practical professionals leads to user-friendly products that fulfil the customers' expectations perfectly.

Our products provide a high level of reliability, accuracy and robustness – even under the roughest jobsite conditions. They increase the productivity and success of our customers. With PROTECT by Leica Geosystems we offer a best-in-class service where customers can count on us, anytime, anywhere.

Lifetime Manufacturer's Warranty

Our promise – your peace of mind

The lifetime warranty guarantees the quality and reliability of our products. However, should a device fail because of defects in material or workmanship, we will repair or replace it free of charge.

5 year No Cost period

An all-round service from the specialists

*Register your Leica Rugby within 8 weeks from the purchase date under <http://myworld.leica-geosystems.com> and extend this exclusive service from two to five years.

The 2 year Knockdown warranty offers you even more protection. If your Leica Rugby accidentally topples over on a jobsite, Leica Geosystems covers the repair costs for the integrated self-levelling system.

PROTECT is subject to Leica Geosystems International Limited Warranty and PROTECT General Terms & Conditions set out under www.leica-geosystems.com/protect.

Certified Quality

Assured reliability

The Leica Rugbys are calibrated and tested according to ISO 17123-6. As a result, you can rely on the continuous high accuracy of your lasers, even under harsh site conditions. A Leica Rugby delivers what is promised!

Swiss Technology

Innovative products and first-class quality

Our devices are manufactured all over the world in state-of-the-art production centres, where Swiss precision, extraordinary craftsmanship and cutting-edge technology go hand-in-hand. Continuous and extensive tests throughout all stages of development and production ensure our products meet the highest standards for precision and quality.

Leica Geosystems intelligent CONstruction

Enhancing your performance

Fully understanding construction carried us beyond the ordinary. The Leica Rugby products are an integrated part of the Leica Geosystems intelligent CONstruction portfolio, enabling you to enhance your performance and increase your profitability through perfecting your construction workflow.

iCONstruct

Intelligent rotating lasers combined with unique accessories provide unbeatable application performance.

- Rugged and robust
- Versatile
- Reliable
- Interchangeable

iCONtrol

Providing you with an efficient portfolio of rotating lasers that communicate with your machine receivers.

- High performance and precision for long range levelling
- Reliable and seamless receiver communication

intelligent CONstruction

iCONSult

A global sales and support network, providing advice on intelligent CONstruction solutions to grow your business.

- Offering a best-in-class service with PROTECT by Leica Geosystems
- Personal service
- Professional consultancy

iCONnect

Seamlessly integrate your rotating lasers with other intelligent construction products and solutions.

- Monitor and correct the laser plane in real-time
- Real-time data guarantees accurate jobs
- Reduced downtime
- High productivity

Understanding construction.

Easy-to-use, jobsite-tough, accurate and reliable - Leica Geosystems Rugby lasers and accessories ensure the most efficient use of your materials and resources.

Leica Geosystems - when it has to be right

Revolutionising the world of measurement and survey for nearly 200 years, Leica Geosystems creates complete solutions for professionals across the planet. Known for premium products and innovative solution development, professionals in a diverse mix of industries, such as aerospace and defence, safety and security, construction, and manufacturing, trust Leica Geosystems for all their geospatial needs. With precise and accurate instruments, sophisticated software, and dependable services, Leica Geosystems delivers value every day to those shaping the future of our world.

Leica Geosystems is part of Hexagon (Nasdaq Stockholm: HEXA B; hexagon.com), a leading global provider of information technologies that drive quality and productivity improvements across geospatial and industrial enterprise applications.
